Bram Stein

Personal details

Name:	Stein, Bram Laurens	**Address:**	Immerkær 7
Nationality:	Dutch		2650 Hvidovre, Denmark
Gender:	Male	**Phone:**	+45-31 48 82 38
Date of birth:	1983-04-02	**Email:**	bram@bramstein.com
Place of birth:	Arnhem, The Netherlands	**Website:**	http://www.bramstein.com/

Professional experience

2010-present
Denmark

One.com
Project Manager and lead developer. I am responsible for the day to day management of the web development department in the One.com Copenhagen office, as well as the design and development of several of our web based applications. This includes a file manager for our cloud storage solution, and a new webmail client. Our web applications are used by one million customers in over 140 countries.

March 2010 - Present

2010-present
Worldwide

Baseref (owner)
As a freelancer I've worked on several (mobile) web applications, most notably the Treesaver framework, where I worked together with famous magazine designer Roger Black and Filipe Fortes. Treesaver is a library for adaptive magazine layouts, and is used in several magazines published on the web and in the Apple App store. Currently I'm working with well-known typographer and author Matthew Butterick to bring his new book to the iPad using web technology.

February 2010 - Present

2008-2010
Denmark

Technical University of Denmark
Software developer at the Technical Information Center of Denmark. I was responsible for the design and development of the DTU Digital Library web application, which provides a user-friendly interface for searching more than 150 million academic publications.

November 2008 - March 2010

2004-2008
Sweden

Stockholm International Peace Research Institute
Lead developer on the FIRST project and system administrator in the IT department. As developer I was in charge of the design and development of the FIRST database system. As system administrator I was responsible for the computer network, servers, project databases, and management of external consultants.

September 2004 - January 2008

2003-2006 *The Netherlands*	**Quality Net Link** Programmer and web-designer on various projects. My tasks consisted of programming website back-ends, website design, database tool development, and database software maintenance. January 2003 - January 2006
2001-2002 *The Netherlands*	**Stockholm International Peace Research Institute** Programmer on the second version of the Facts on International Relations and Security Trends (FIRST) database system. I was in charge of the design of the new system, the implementation and data set conversion. July 2001 - October 2002

Education and qualifications

2006-2009 *Sweden*	**Master of Science in Computer Science, Uppsala University** Graduated in May 2009.
2001-2005 *The Netherlands*	**Bachelor of Engineering in Media Technology, Utrecht University of Applied Sciences** Graduated in January 2005, *with Distinction*.

Elective subjects:

- Technical Commercial Engineer (includes courses on management, law, financial management, industrial marketing and communication);

- Artificial Intelligence;

- Human Computer Interface course at Uppsala University.
